- Very Difficult
- Fire Trails
- Private Land - Please Keep Out
- Water Bodies
- Creeks and Streams
- Contour - 20m interval
- Contour - 5m interval
- Tree Cover

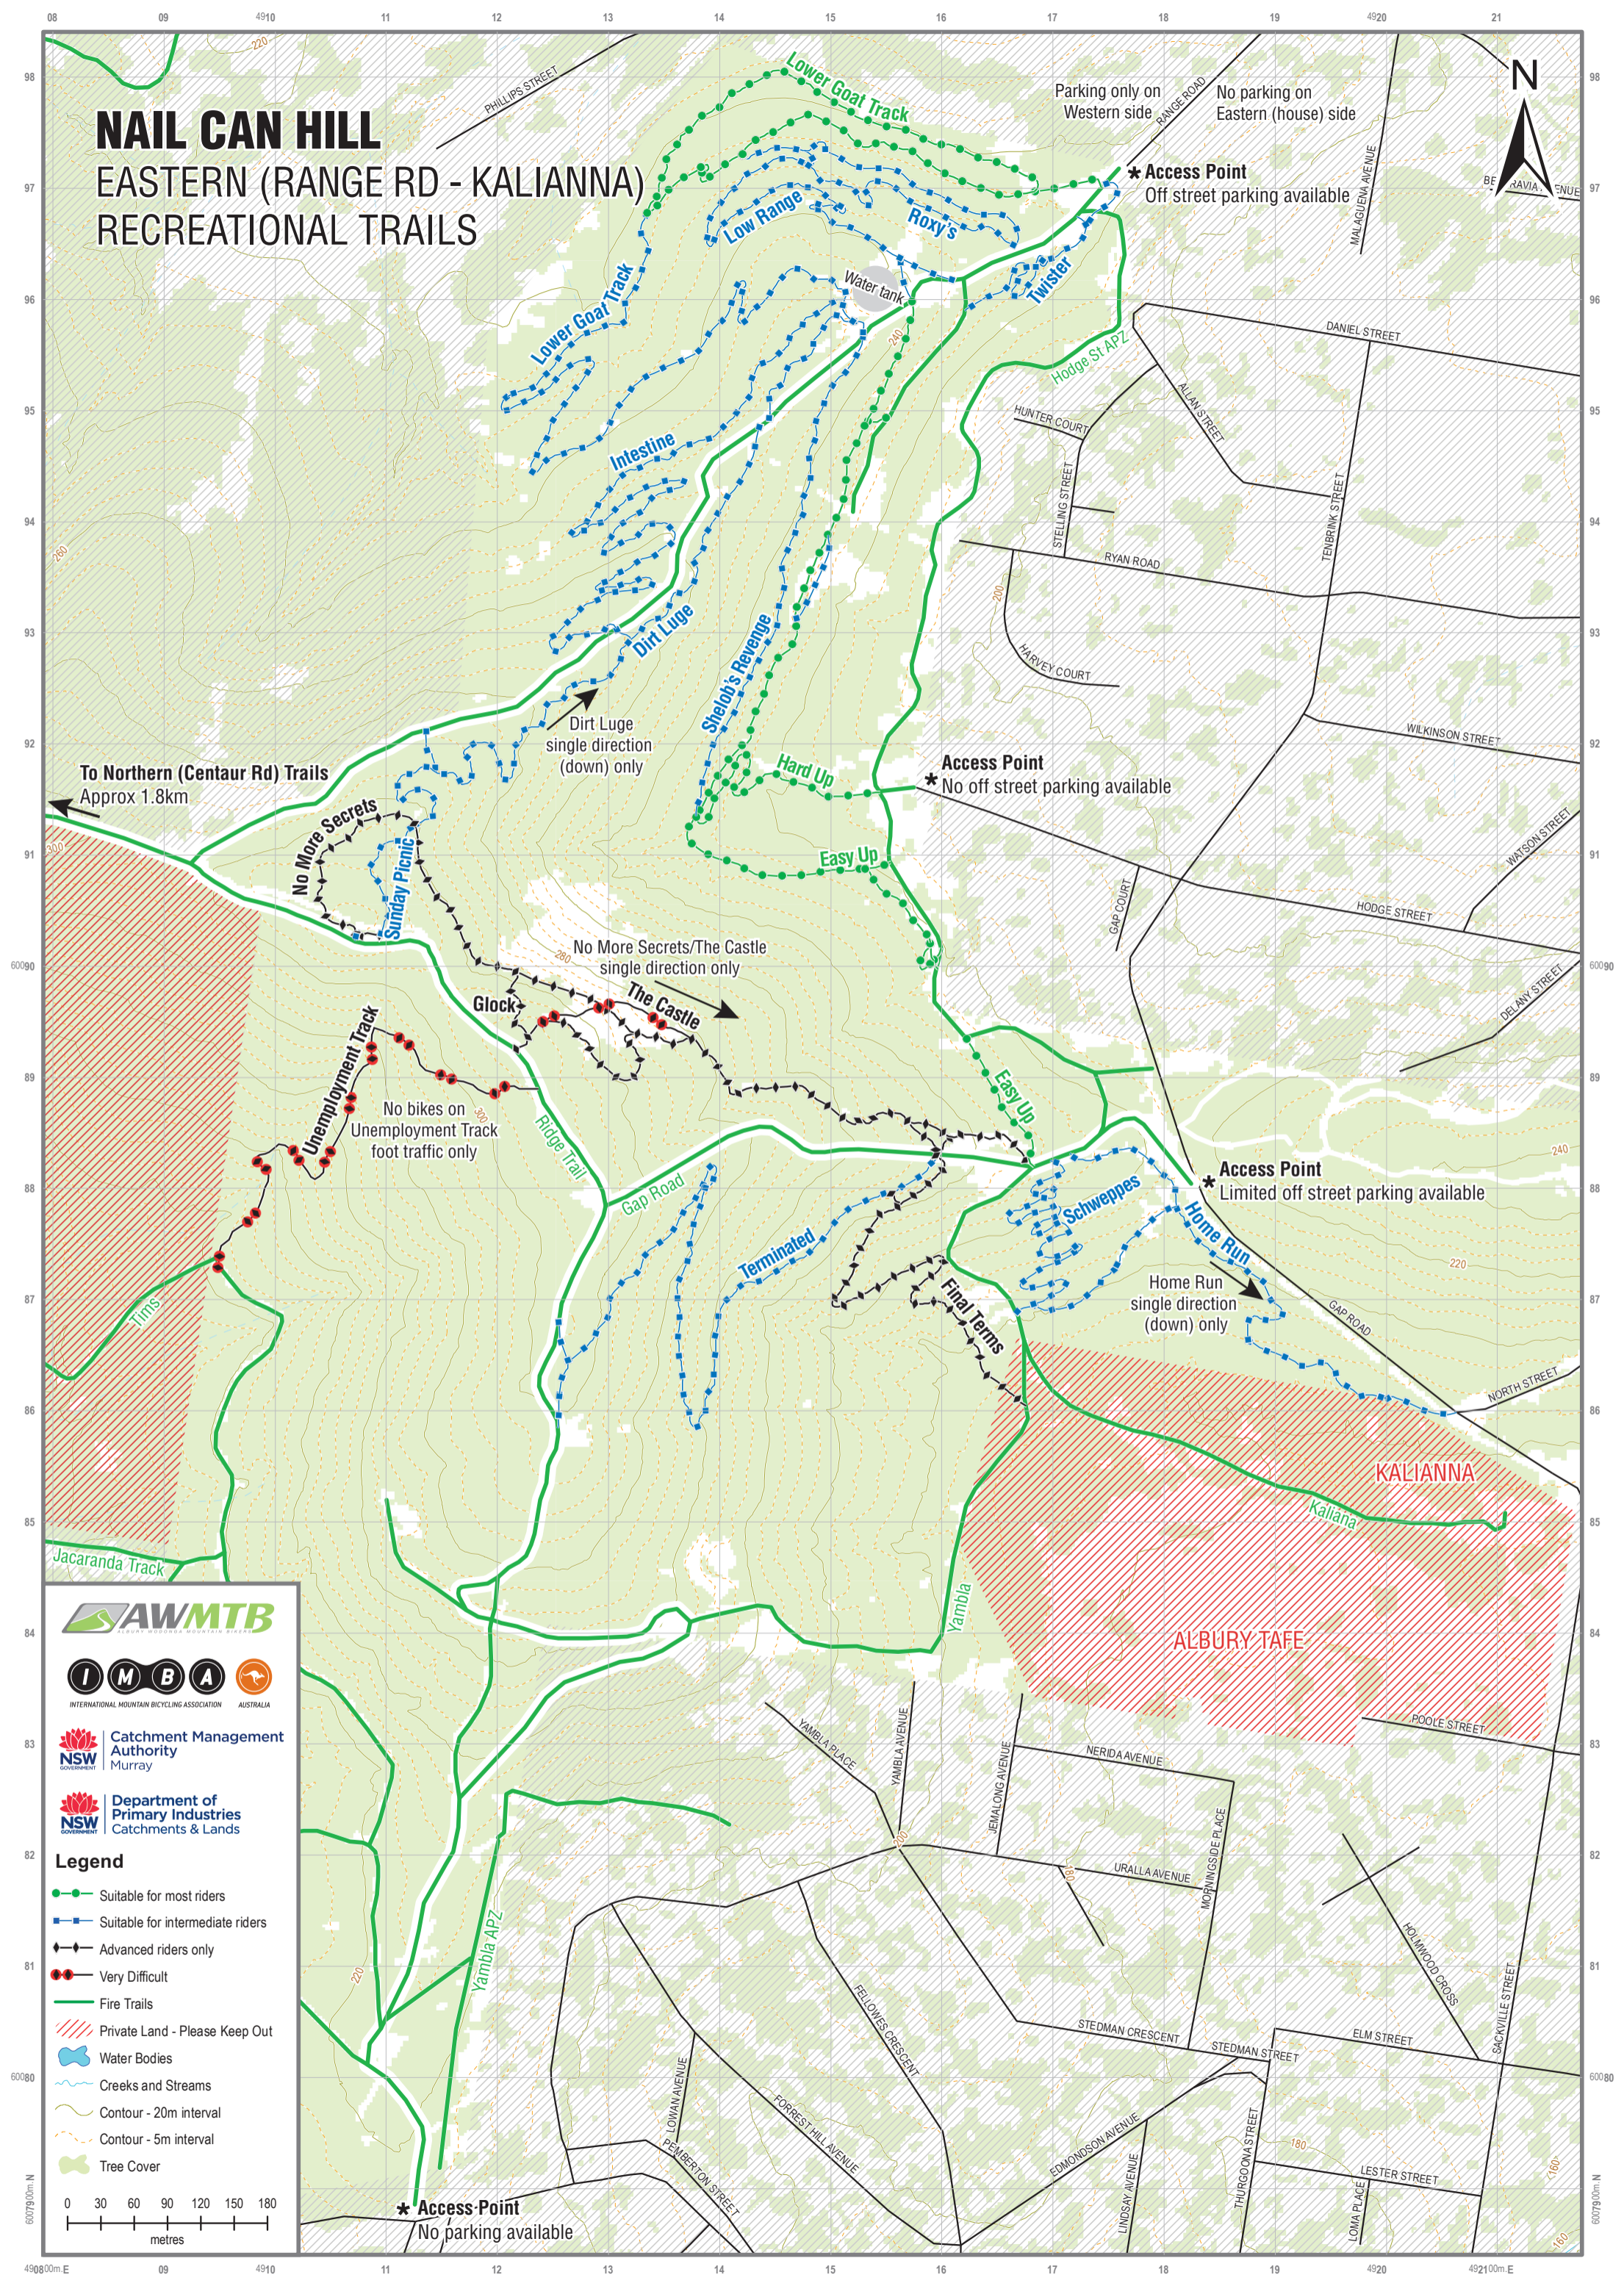

RULES OF THE TRAIL

- Respect The Trails:** Please don't modify trails or make new trails without the approval of the Land Manager. Trail maintenance at Nail Can Hill is coordinated through Albury Wodonga Mountain Bikers.
- Respect The Environment:** Take care around wildlife – startling or scaring them can put you in danger. Please don't cut, collect, clear or damage vegetation – Nail Can Hill is a sensitive environment and deserves our respect and care.
- Only Ride Open Trails:** Occasionally some trails may be closed temporarily for repairs – if a trail is bunted off or listed as 'closed', please do not ride. Please only ride trails shown on the map. Please don't trespass on private property. Please follow trail signage – especially 'no bike' and single direction trails.
- Leave No Trace:** Wet and muddy trails can be easily damaged by riding – if the trail is soft, please ride another trail. Take out what you took in – if you see rubbish, please take it out as well.
- Control Your Bike:** These trails are open to all non-motorised users and are open in both directions, unless signed otherwise. Please ride within your limits and expect to see other trail users.
- Share The Trail:** Let other users know you're coming – a friendly greeting or ringing your bell works. Uphill traffic has right of way (unless on a single direction trail) and bikes should give way to all other users.
- Plan Ahead:** Plan your ride and let someone know where you're going. Take a charged mobile phone, and make sure you have enough food and water. There is no running water available on Nail Can Hill. Make sure your bike and gear is in good working order before you go!
